DETAILED ACTION

This Office action is in response to the preliminary amendment filed on 9/28/2005.

Claim Objections

1. Claim 36 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Omitting an element in a parent claim doesn't further limit the subject matter of a previous claim.

Allowable Subject Matter

2. Claims 22-35,37-42 are allowed.
3. The following is an examiner's statement of reasons for allowance: the claimed limitation directed to an underneath camshaft drives by means of a push rod via a hydraulic valve clearance adjustment element a rocker lever, which has a curve contour, which runs on a roller of an intermediate lever, which is moveable by means of two rollers, which are arranged on one axis, in slotted links, which are connected in a fixed manner with a cylinder head, whereby the intermediate lever supports with a contour at an adjustment bar, which is conducted within a housing, and rolls with a work

curve on a roller of a cam follower, and whereby the cam follower acts with engagement areas, which are provided bottom-sided, respectively, on a hydraulic adjustment element and a valve of a combustion engine is not found or rendered obvious in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
